

**Construction Services for the
National Ecological Observatory Network Project**

The National Ecological Observatory Network, Inc. (NEON, Inc.) is seeking expressions of interest from qualified firms for construction services, for a potential project to build the National Ecological Observatory Network (NEON), which may be funded with MREFC funds under a cooperative agreement with the National Science Foundation. The NEON project is contingent upon availability of funds. Additional information regarding NEON, Inc. and the NEON construction project may be found at the NEON webpage: www.neoninc.org.

The construction services initial work scope may include civil (e.g., site layout, access ways, roads, soil boring arrays, foundations, underground utilities, tower installation), environmental work (e.g., support of EHS tasks, site environmental protection) and construction management of jobsites located in a variety of ecologically sensitive observation areas, and facilities for up to twenty (20) NEON Domains, which are widely distributed across U.S. territory.

Firms will be evaluated on breadth of relevant experience and qualifications, safety, depth of staff, professional certification, experience in similar projects, projects of national scope, and environmentally/ecologically sensitive projects, and tower installation experience.

Firms are requested to submit the NEON Pre-Qualification Package, and other related corporate and safety material, electronically or hard copy, by April 19, 2010 to be considered.
